YEVHEN KOVALCHUK

REACT / FULLSTACK JUNIOR DEVELOPER

Summary

I like to think of technology as a tool for solving problems. And my goal is to solve as many problems as possible using this tool. I am always looking for a challenge and opportunity to learn while having a good time. I want to start with medium projects and grow to Senior.

Projects

Slimmom (code).

Calculation and control of calories for losing weight.

Team project. Role: developer.

Stack: ReactJS, Redux, NodeJS, Material UI, Formik.

PhoneBook (code).
